Client Testimonial

“PeopleScout immediately understood the challenge we had in recruiting for a specialist position out of region and in an area awash with vacancies in similar organisations. The approach of understanding the role and the type of experience required, then refining this through presenting a selection of candidate profiles, was excellent. I was reassured that the PeopleScout recruiter knew precisely what we were looking for. I was kept fully updated throughout, with regular conversations and emails. The shortlist provided was excellent, with all candidates suitable for interview. I was delighted to appoint a fantastic candidate who we would not have reached without PeopleScout’s efforts.”
